OBJECTIVE

To obtain a challenging position as a Web/WordPress Developer, where I can contribute to website development, customize WordPress solutions, and enhance my skills in both frontend and backend technologies.

PROFESSIONAL SUMMARY

Full Stack Web Developer with 3+ years of experience in WordPress development. Skilled in theme and plugin customization, responsive design, REST API integration, and database-driven applications, with knowledge of Python backend technologies.

EXPERIENCE

Web Developer — FMS Dental Hospital, Hyderabad

April 15, 2026 – Present

- Website development and maintenance
- Custom design of website and blog updates
- Schema development and implementation on webpages

Web Developer — Virinchi Technologies, Hyderabad

Jan 27, 2025 – Dec 8, 2025

- Website maintenance, blog updates, and doctor profile management
- Malware removal, Wordfence security, and Digital Ocean server handling

Web Developer — Marcamor Digital Marketing Agency, Hyderabad

May 23, 2024 – Jan 17, 2025

- Managed end-to-end domain purchasing — researching, selecting, and acquiring domains based on client needs
- Configured domain settings and DNS records; set up hosting accounts and deployed websites to servers
- Resolved domain and hosting issues, including DNS configuration and domain transfers
- Built and launched e-commerce websites using Shopify and WordPress; integrated Razorpay payment gateway

Web Developer — ShootOrder Digital Marketing Agency, Hyderabad

Oct 31, 2022 – May 22, 2024

- Developed responsive websites using HTML, CSS, JavaScript, WordPress, and React JS, including custom themes and plugins
- Created interactive forms with SQL database integration for storing user information and leads
- Integrated Zoho CRM with web forms; managed emailers and flyers for marketing campaigns
- Designed marketing assets and ensured SEO-friendly, user-centric web development practices
